

DATE: March 18, 2010

TO: All County Agricultural Commissioners

FROM: Plant Health and Pest Prevention Services

SUBJECT: **A and Q Pest Report No. 10-2010**
Weekly A and Q Report: March 4-10, 2010

Attached is the report for all A and Q pests intercepted or detected in California from March 4-10, 2010. Pests are identified by the California Department of Food and Agriculture's (CDFA) Plant Pest Diagnostics Laboratory.

LA County's New Detector Dog Team's First Find!

PDR: 1308946

Los Angeles County Reports!

Ebony

Inspector Hung Truong and Ebony are one of the two new detector dog teams in Los Angeles County. Ebony is a black Labrador mix who graduated in December 2009 from the National Detection Dog Training Center located in Georgia. Ebony has worked at FedEx for only two short weeks and is able to detect cut flowers and vegetables in unmarked packages. On March 5, 2010, at about 8:00 a.m. at the FedEx in Santa Fe Springs, Ebony responded to an unmarked box sent from Arizona. Inspector Truong and supervisor Carmen Rieger opened the unmarked box and found it contained dandelion greens, bok choy, dill, green lettuce, and parsley. The shipment was held and inspected. The mixed vegetables appeared home grown and contained ants, aphids, mites, slugs, springtails, wasps, and moths. One of the insects was a big-headed ant (*Pheidole* sp.) which is a Q-rated pest. The shipment's contents were destroyed by freezing.

After Treatment

**Inspector Hung Truong and
Ebony**

If you have any questions regarding pest interceptions listed under the action codes Quarantine - State Exterior (01) or Quarantine - State Interior (02), contact Erin Lovig at elovig@cdfa.ca.gov.
