

A Message of Concern from the Bell Chamber of Commerce
DON'T BE FOOLED BY LIARS & COWARDS!

Passed out

THE CITY OF BELL IS NOT RAISING TAXES!!

In fact, NO city in the State of California can raise taxes EXCEPT BY A VOTE OF THE PEOPLE.

A faction of evil-doers with a questionable agenda that hides behind the name *Bell Residents Club* is spreading lies about our City of Bell.

Lies, lies, and more vicious lies!

They are dangerous and out to destroy **your** quality of life in Bell—

- they seek to eliminate sports and activity programs for our children;
- they aim to reduce our police force and threaten our public safety;
- they want to decrease the property values of our homes;
- they plan to prevent street and sidewalk improvements;
- and they do not want quality city parks for the families of Bell

What the *Bell Residents Club* stands for is:

- lying to LAUSD to obtain free services which costs taxpayers in Bell;
- bringing gang members and unsavory characters to our community;
- creating mob frenzy causing potential harm to our residents and taking police away from critical needs;
- deceiving and lying to the residents of Bell;
- using cheap fear tactics to manipulate Bell residents
- they stand in the way of progress

The Bell City Council cares deeply about our Community and the Bell Chamber of Commerce wholeheartedly supports the City of Bell.

There is a reason Bell leads in the Southeast area:

- B** – Bell **B**elieves in OUR Community
- E** – In Bell **E**veryone Counts
- L** – Bell **L**istens to Residents and their Needs
- L** – **L**iving is Better in Bell

But, ask yourself, who are these cowardly people, and why are they lying and misleading the good residents and businesses of our fine Community into an uproar? Where is their transparency? What is their real agenda? Who are they?

The *Bell Residents Club* is financed and lead by landlords, absentee landlords and outsiders—not living in this community who are trying to lower their taxes so they can increase the housing rents of our residents and therefore increase their personal profits and continue to take money out of the Community and into their pockets.

**Don't be manipulated by Sneaky Cowards!
Help keep Bell strong!**

Question the motives of the *Bell Residents Club* who prey on the innocent. Be warned of "false prophets." Don't be misled down a path of lies and hidden agendas.

Join us! Be a part of something positive! Say "No" to deception and negative manipulation, and to those who create fear to further their hidden agenda. Turn your back on those who use destructive means for their own personal gain.

The Bell Chamber of Commerce is a reliable source of information: an organization that was formed before the City of Bell was incorporated in 1927. Our mission is to continue to better the City of Bell; to build and bring together residences and businesses.

The deceitful and hurtful actions of the *Bell Residents Club* demonstrate their purpose is not to build and help the community; its aim is to attack and destroy our Community.
